THERMO 2027 Canadian Rockies

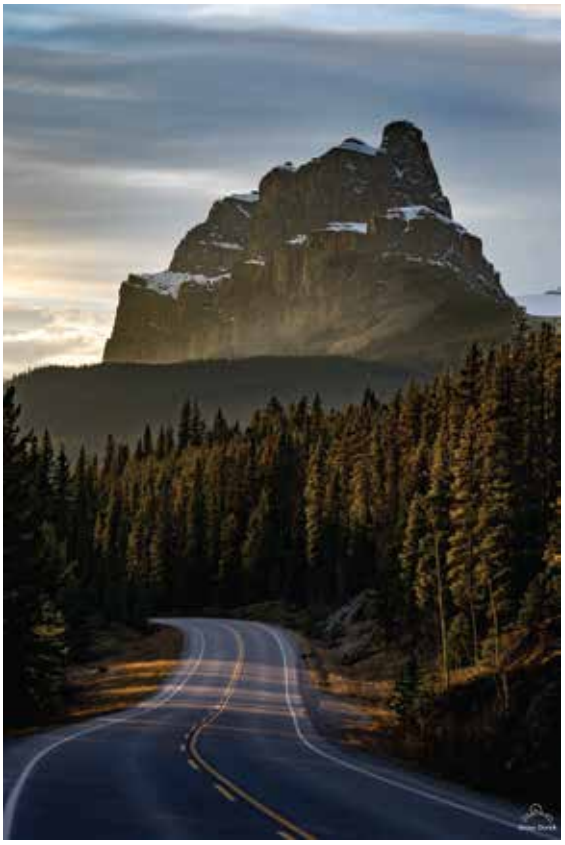
20th INTERNATIONAL CONFERENCE ON THERMOCHRONOLOGY

September 12 - 17, 2027

Banff National Park, Canada

SPONSORSHIP PACKAGE

ABOUT THERMO2027



The International Conference on Thermochronology is the leading international meeting dedicated to low-temperature thermochronology, a sub-field of geochronology that constrains important geological processes relevant to tectonics, resource systems, landscape evolution, and Earth surface processes. The conference focuses on the theory, practice, and quantitative interpretation of fission-track, noble-gas, and related thermochronologic methods, and their application across the geosciences.

Thermo2027 will celebrate the 50th anniversary of the conference and mark its first time being held in Canada. Hosted by a consortium of Canadian scientists, the meeting will take place in Banff, Alberta, at the **Banff Centre for Arts and Creativity from 12–17 September 2027.**

Thermo2027 will bring together approximately 200 researchers from around the world and provide a forum to present and discuss cutting-edge research, emerging analytical techniques, and new applications of thermochronology, while fostering interdisciplinary exchange and collaboration across academic, governmental, and applied Earth science communities.

SPONSORSHIP

By supporting Thermo2027, your organization will engage directly with a highly specialized scientific audience including university faculty, early-career researchers, graduate students, government scientists, and industry professionals working at the forefront of field geology, mass spectrometry, and tectonic, climatic, and resource-focused science.

Sponsorship of Thermo2027 offers meaningful visibility within this global research community while demonstrating your organization's commitment to supporting international collaboration, early-career training, and innovation in novel laboratory methods and Earth science research.

SPONSORSHIP TIERS

Thermo2027 offers tiered sponsorship opportunities that provide graduated levels of visibility and recognition commensurate with the level of support. Sponsors may participate through a single tiered package or by combining multiple à la carte sponsorships (**next page**) to reach a desired tier. Tiered sponsorship recognizes overall contribution to the conference and complements targeted support of specific conference activities.

Benefit	Platinum ($15,000+ CAD)	Gold ($10,000 + CAD)	Silver ($5,000 + CAD)	Bronze ($2,000 + CAD)

**Company displays are intended for informational and networking purposes and provide an opportunity for organizations to share information about products, services, facilities, analytical capabilities, and research initiatives with conference delegates.*
***Selection of featured sponsorship opportunities is subject to availability and organizing committee approval.*

We are happy to discuss bespoke sponsorship opportunities or in-kind support tailored to your organization's interests and the conference program

À LA CARTE OPTIONS

General sponsor recognition (applies to all à la carte items unless otherwise noted)

À la carte sponsors will receive baseline recognition including logo placement in the technical program, logo and direct website link on the conference website, and acknowledgement in onsite sponsor recognition signage. Additional, item-specific recognition is outlined below.

FLAGSHIP OPPORTUNITIES

Coffee Break Sponsor (up to 8 available) — $2,500 CAD

Coffee breaks are an integral part of the Thermo2027 program, providing informal opportunities for discussion, networking, and scientific exchange between oral sessions and poster presentations. These breaks are among the most consistently attended moments of the conference, bringing together delegates from across disciplines and career stages in shared spaces. Sponsorship of a coffee break offers visible association with one of the most frequently used and appreciated components of the meeting.

Additional item-specific recognition:

- Logo displayed in the coffee break area
- Company logo or promotional slide/video displayed on conference screens during coffee break

Lunch Sponsor (up to 5 available) — $7,500 CAD

Conference lunches provide a valuable opportunity for continued interaction and networking during the scientific program, allowing delegates to engage in discussion and collaboration in an informal setting. Held within the conference venue, lunches bring together the full meeting audience and support sustained participation throughout the day. Sponsorship of a conference lunch aligns your organization with the day-to-day functioning of the meeting while offering prominent recognition during a high-traffic, well-attended period.

Additional item-specific recognition:

- Logo displayed in the lunch area
- Company logo or promotional slide/video displayed on conference screens during lunch break

Conference Dinner Sponsor — Contact for details

The conference dinner is a central social event of Thermo2027, providing an important opportunity for informal interaction, networking, and community building among delegates from academia, government, and industry. Held mid-conference, the dinner brings participants together outside the scientific sessions to foster discussion, collaboration, and professional connections within the international thermochronology community. Sponsorship of the conference dinner supports this key element of the meeting while offering visible recognition in a relaxed, highly attended setting.

Additional item-specific recognition:

- Prominent recognition as Lead Conference Dinner Sponsor
- Logo displayed on dinner-specific signage
- Acknowledgement during opening remarks and at the dinner

OTHER SPONSORSHIP OPPORTUNITIES

Technical Program Sponsor — $7,500 CAD

Your organization will receive prominent visibility associated with the core scientific content of Thermo2027. The technical program comprises a single-session format featuring approximately 200 presentations. Sponsorship of the technical program aligns your organization with the exchange of cutting-edge research, methodological advances, and emerging applications of thermochronology across the geosciences, while demonstrating a commitment to supporting open scientific dialogue and international collaboration

Additional item-specific recognition:

- Logo featured on the technical program webpage
- Recognition on the technical program opening slide
- Option to sponsor one designated technical session (recognition only; no influence on content)

Mid-Conference Field Trip Sponsor (up to 2 available) — $5,000 CAD

The mid-conference field trip is a core component of Thermo2027, providing participants with the opportunity to engage directly with the geological context that underpins thermochronologic research. The field trip brings delegates out of the conference venue and into the field, facilitating hands-on scientific discussion, professional networking, and informal exchange among researchers from academia, government, and industry. Sponsorship of the field trip supports experiential learning and community building while enhancing opportunities for meaningful interaction within the international thermochronology community

Additional item-specific recognition:

- Logo on field trip information webpage and materials
- Logo displayed on field trip-related signage (e.g., buses or meeting points)
- Acknowledgement during field trip introductions

Short Course Sponsor (up to 2 available) — $3,500 CAD

Your organization will gain targeted visibility within one of the most highly attended and engaged components of Thermo2027. The short courses attract a focused audience of students, early-career researchers, and established scientists seeking advanced training in topics such as thermal history modelling, statistics, large-scale data integration, and the application of thermochronology to landform and structural reconstruction. Sponsoring the short courses aligns your organization with high-level scientific training, capacity building, and methodological innovation within the international thermochronology community.

Additional item-specific recognition:

- Recognition on opening slide of sponsored short courses
- Logo on short course webpage and materials
- Acknowledgement during opening remarks

Conference Icebreaker Sponsor — $10,000 CAD

The conference icebreaker provides the first opportunity for delegates to meet, reconnect, and begin informal scientific exchange. Sponsorship of the icebreaker supports community building while offering visible recognition during one of the most memorable moments of the conference.

Additional item-specific recognition:

- Logo displayed at the icebreaker venue
- Acknowledgement during opening remarks and at the icebreaker

Additional Sponsorship Opportunities — Contact for details

In addition to the sponsorship opportunities outlined above, Thermo2027 welcomes discussion of bespoke sponsorships and in-kind support. Organizations interested in supporting delegate materials, participant networking activities, unique conference experiences, or other aspects of the conference are encouraged to contact the Sponsorship Chair to explore opportunities tailored to their interests and the needs of the conference.

CELEBRATING 50 YEARS, SUPPORTING THE FUTURE

As Thermo2027 celebrates the 50th anniversary of the International Conference on Thermochronology and its first meeting in Canada, we look forward to welcoming a diverse international community of students, early-career researchers, established scientists, and industry professionals to Banff.

Sponsor support will help create an inclusive, collaborative, and scientifically vibrant conference while reducing barriers to participation for students and early-career researchers. Together, we can ensure that Thermo2027 remains a welcoming forum for scientific innovation, professional development, and international collaboration, helping to advance the future of thermochronology and the geosciences.

NEXT STEPS

For further information about sponsorship opportunities please contact the Thermo2027 Sponsorship Committee. We would be pleased to discuss options that align with your organization's interests.
